Dear Laurence,

### **Testimonial**

We have used Informanagement as our firm's website and social media publishers for the past 7 years.

The support and service has been very good, we have seen the functionality of the website along with the newsletter provision and secure portal for document exchange and e-signing get better and better. The e-signing function is a great help at the peak December and January months.

Added to that the provision of the CPD tutorials, all structured and verifiable, saves us time and additional cost.

Our clients often respond to the articles in the newsletter which is indicative of the relevance and quality of the articles to our clients. We even have a solicitor who asked to be placed on our newsletter mailing list!

The website set up was a "handheld" exercise by the team at Informanagement who guided and supported us throughout that process and nothing ever seems too much trouble.

We receive regular enquiries from our website from potential new clients which shows it works.

With kind regards,

*Mark K Harwood*
